Alexandria, VA 22313-1450

Sir:

INFORMATION DISCLOSURE STATEMENT

As suggested by 37 C.F.R. 1.97, the undersigned attorney brings to the attention of the Patent and Trademark Office the references listed on the attached form PTO-1449. A copy of the literature article is enclosed. This is not to be construed as a representation that a search has been made or that no better prior art exists, or that a reference is relevant merely because cited.

The following does not admit or deny that the event described is prior art within the meaning of 35 U.S.C. §102 and is presented to meet applicant's duty of candor and for the Examiner's consideration. Years prior to the filing of this application, a customer of the assignee of the present application complained about a dark streak in his carpet. Upon investigation, a single end of soiling-prone trilobal yarn was discovered to have been erroneously incorporated into the customer's carpet in which the remaining percentage of yarn was entirely composed of soil-hiding hollow fill cross-section yarn. When the carpet was cleaned, the dark single end stripe went away. When the carpet became dirty, it came back. This event was noted as a genesis for the present invention.

HUTCHISON
Serial No. 10/612,284

The Examiner is requested to initial the attached form PTO-1449 and to return a copy of the initialed document to the undersigned as an indication that the references have been considered and made of record.

Respectfully submitted,

NIXON & VANDERHYE P.C.
